

Epic Quilt™ | 97

Computerized Sewing Machine

What Quilt Dreams
Are Made Of

Make Your Quilt Dreams A Reality

From projection that helps place and guide stitches to the spacious workspace that can handle even king-sized quilts, the EPIC QUILT™ 97 computerized sewing machine was designed for quilters. The included accessory kit enhances your quilting, making creativity effortless.

Visit mysewnet.com/studio for tips and hints to make this quilt!

Quilt Like Never Before

Sewing Projection

Stitch Preview projects whatever you plan to stitch on the fabric before you sew, or you can easily align your stitching with an overlay of helpful lines with adjustable angles and grids of adjustable sizes in sewing mode. Achieve perfectly placed stitching while saving precious time.

Quilting Accessories Included

Level-up your quilting with accessories carefully designed for this purpose and for your machine. Included with your machine are the following accessories:

- Extension Table
- Free-Motion Ruler Foot
- Quilting Kit (Includes: Rotating Self-Healing Cutting Mat, Rotary Cutting Tool and Replacement Blades, Ruler Set and Needles)
- Quilt Binder and Presser Foot

Large Working Area

More than 12" (310 mm) to the right of the needle and working area height over 5.5" (140 mm) gives plenty of room for large, bulky projects.

Artificial Intelligence Technology

Attach any included presser foot and the machine will inform you if the foot is compatible with your stitch selection. It will show you if the foot is attached incorrectly to make sure you are using the best foot in the best way for your projects.

Exceptional Fabric Feeding With Integrated Dual-Feed Technology

The Integrated Dual-Feed technology feeds fabric from the top and bottom for ease when sewing multiple layers of fabric or specialty fabrics, eliminating the need for a separate Dual-Feed Presser Foot. Together with additional front feed teeth and an overall wider feed teeth system the Integrated Dual-Feed will feed your projects smoothly.

Exclusive Stitch Techniques

Customize any project with a variety of stitch techniques that give your project dimensional elements that are effortless and irresistible: Guided Pictogram Stitches, Floating Stitches, Pop-Up Stitches, Sequin Stitches, Appliqué Stitches, Yarn Stitches, Theme Stitches, and Motif-Builder Stitches.

deLuxe™ Stitch System

Spend less time adjusting your stitch and more time stitching with high quality results regardless of fabric and thread type. Perfect for gorgeous stitch results on both sides of the fabric even with metallic or other specialty threads.

Computerized Sewing Machine

Bright Work Light

Developed by optronic experts using modern LED technology and light guide optics, the work-area lighting allows you to see your project in true color with virtually no shadows so you get a clear view of your project without needing additional lighting.

EXCLUSIVE SENSOR SYSTEM™

Automatically and continuously senses and adjusts to any thickness of fabric for perfect, even feeding as you sew.

Extra-Large Touch Screen

Get all the information you need directly on an extra- large 10.1" (136 mm) color capacitive touch screen. The capacitive touch tablet-like screen allows you to easily navigate on-screen using touch gestures like swipe, pinch and spread.

Accessory Tray With Customized Compartments

There's a place for all our included presser feet. Store your presser feet in alphabetical order and place your Sensor Buttonhole Foot in its own slot. There's even a place for the straight-stitch plate to click into place.

STITCH CREATOR™

Create a 9 mm stitch completely from scratch so you always have the right stitch for your project, or edit one of the many built-in stitches to customize a stitch for unlimited creativity.

mySewnet™ Enabled

Get creative with seamless cloud-based navigation between your machine screen, laptop and mobile.

mySewnet Blog

Access a live feed directly on your screen of news, free projects and more.

mySewnet App

Download the free app that connects your phone to your machine to get tutorials, and more.

mySewnet Cloud

Access the cloud folder with free 100 MB storage for all files saved in one place directly from the machine screen.

mySewnet Project Reader

View your projects on the machine screen and load stitches directly from the instruction.

Sewing

Tapering on Decorative Stitches

Effortlessly taper your stitch at the beginning and/or at the end of any stitch up to 9 mm wide. Change the angle of taper for unlimited creative opportunities.

Extensive Selection of Built-In Stitches

Choose from a variety of over 890 stitches for basic sewing, decorative sewing and more. There's a stitch for every project. Make a big impact with little effort with stitches up to 54 mm wide, or program six sewing alphabets, with both uppercase and lowercase letters.

Free-Motion Settings

Choose from three different free-motion modes to get the best free-motion results based on the foot you prefer, there's even a ruler foot setting. You can also use any non-dimensional decorative stitch up to 9 mm wide in free motion.

Stitch Positioning

Change complete stitch position for any stitch with less than 9 mm stitch width. Align the stitch position with a point on your fabric or presser foot without moving your fabric.

37 Needle Positions

Sew a straight stitch in 37 different needle positions for ideally placed topstitching, edge stitching, under stitching, stitching-in-the-ditch or quilting.

Stitch Repeat

Let the machine help you get the perfect length or the perfect number of stitches so you don't have to think about it.

JoyOS Advisor™

The JoyOS ADVISOR feature offers guidance and support right at your fingertips. Select your fabric type and choose from a wide selection of available sewing techniques. The JoyOS ADVISOR feature will instantly set the best stitch width, stitch length, thread tension/portioning, and presser-foot pressure for the technique you have chosen.

Interactive Tutorials

Learn how to sew different techniques like zippers, collars, hems, etc.

Sewing Instructions

Sewing projects with all the necessary instructions built in.

Step-By-Step Workbook

Learn the amazing features of the machine, like Create Sequence.

Easy-Access User's Guide

Get access to the full User's Guide directly on the machine with the easy-access icon. Use the search function to effortlessly find the topics you want to learn more about.

Stabilizer Guide

The perfect tool when choosing the right stabilizer for your project.

Quick-Start Guide

Learn how to set up your machine to start stitching more quickly.

Accessory Guide

Full set-up and instructions for some of our more advanced accessories.

Needle Guide

Learn more about what each needle is best for so you can choose the perfect needle for your project, for better stitch results and fewer broken needles.

Machine

Needle Piercing Power

Electronic needle piercing power (150 N) provides superior results when using heavy fabrics or multiple layers.

Machine Set-Up Wizard

The Machine Set-Up Wizard will show you step by step how to set up your machine, making it quick and easy to get the most out of your machine the first time you sew.

Straight-Stitch Plate and Sensor

The included Straight-Stitch Needle Plate is the perfect help for straight stitch sewing with any special accessory. This prevents fabric from being pulled down under the needle plate. When you attach the Straight-Stitch Plate, the machine sensor alerts you if you select any stitch other than a straight stitch to avoid breaking needles.

Stability

The base plate is engineered to reduce vibrations and increase stability. Sew with less vibrations for a steady and quiet sewing experience.

Quick Help

Not sure what something on screen means? With just the touch of a button you can see a quick description of whatever you want to know more about on screen. Spending time looking everything up in your manual is a thing of the past.

Large Thread Spool Capability

Built-in telescopic thread stand allows you to use larger thread spools without the bulk of additional accessories.

Large Bobbin

Sew for longer periods of time without interruption.
